About the first of September you will begin to think winter is coming. Then you will want storm windows, doors, etc. It might not be a bad idea to feel around a bit right away before the fall rush commences. We particularly want to call your attention to the fact that we are selling CHEAP now, but only for CASH.

E. Simpson & Co.

FOR WINES, LIQUORS & CIGARS,

The pick of the choicest brands selected from the markets of both hemispheres, also American Lager, Domestic Ale and Porter, Guinness's Stout, and Bass' Pale Ale, call on or write to

OCTAVIUS FIELD.

Terms Cash.

Store closes at 18 o'clock; take notice and govern yourselves accordingly.

The Greatest Slaughter In Prices of Ready-Made Clothing

will take place at.....

T. W. Robinson's

Commencing on Monday, October 21st, we will clear out all our last season's stock of men's suits and overcoats, boys' suits, overcoats and pea jackets, at cost price for cash only. Mark the figures. We mean business.

When cast I secured some grand values in many lines, especially clothing; some lines at even less than manufacturer's price, and of course we will give our customers the benefit of the same.

OUR LEADERS!

(6 specials in clothing.)

1st.—\$3.00 will buy a nice, neat, dark pattern, Etouffe suit, was sold last season for \$8.00.

2nd.—\$6.00 will buy a nice, dark brown, extra heavy suit; well made and just the thing for winter.

3rd.—A good tweed suit \$7.50; worth at least \$10.00. To arrive this week.

4th.—See what a nice, all-wool, navy serge, we can give you for \$10.00.

5th.—A double breasted, navy worsted suit, extra value—only \$15.00. Will wear and not get shabby. To arrive this week.

6th.—Boys' navy serge knickerbockers, lined throughout. Size 22 to 25 only 35 cents; 26 to 28 only 45 cents.

Customers who have seen those \$5.00 to \$6.00 suits, wonder how they were ever manufactured at the price we offer them, but they were bought for spot cash, and cleaned out the whole lot, hence the reason we can give you such benefits. Also might make special mention of our heavy Etouffe ulsters only \$5.00, and heavy frieze pea jackets, roll collar, \$5.00.

To arrive: One car winter apples, One car potatoes, One car L. of W. flour, One car salt.

Don't forget sale of furniture on Saturday.

T. W. ROBINSON.

SIR WILLIAM VAN HOBNE

MAKES HIS ANNUAL TOUR OF INSPECTION.

Says Wheat May Reach the Two Dollar Limit During His Lifetime — Farmers, Take Courage.

Sir William Van Horne, president of the C.P.R., arrived in Moose Jaw Sunday evening by special train with a party including Mr. Clouston, general manager of the bank of Montreal; Mr. James Ross, the well-known railway contractor; Mr. Tait, assistant general manager of the C.P.R.; Mr. Peterson, chief engineer; Mr. William McKenzie, contractor and street railway proprietor; Mr. Clarke, a New York gentleman; Mr. Whyte, general superintendent; and Mr. Cross, master mechanic.

The special that conveyed the party arrived about seven o'clock in the evening and remained till about eight the next morning.

Assistant Manager Tait's familiar face was easily recognized by his old friends, and much of his time was occupied in pleasantly chatting with those who had been his co-workers while he was division superintendent at this point. Sir William was quite busy examining the garden and other parts of the company's property before the train left in the morning and in all probability Moose Jaw will be the possessor of a new freight shed and station which is certainly needed. At Winnipeg Sir William was given an opportunity of correcting a report that he had perhaps in a measure glutted the wheat market and furnished material for the C.P.R. to haul. We don't know whether that was the intention of the president when he made the prophecy but he was very careful to impress on the reporters this time that he simply stated wheat might be two

dollars per bushel in his lifetime. This is encouraging and with freight rates at rock bottom prices as stated by this railway magnate there is surely good times ahead for the farmers although perhaps a little remote.

Sudden Death of Mr. Burpee.

Gloom was cast over our town on Wednesday by the sudden death of Edgar F. Burpee. The deceased was almost convalescent from an attack of typhoid fever when he was again prostrated. The second illness was of short duration. On Tuesday night it was known that the chances of recovery were slight and the presence in Moose Jaw of Dr. Cotton, of Regina, summoned for consultation, showed that the crisis was near. Early on Wednesday morning Mr. Burpee made his will and stated his wishes regarding his funeral. About noon the sufferer took a sudden change and expired in a few minutes.

The Masonic fraternity of which the deceased was a highly respected member, took charge of the funeral. An emergent communication was convened at 3:30 o'clock. About four o'clock the members of the lodge, their regalia draped with crepe, marshled in procession to the house where the remains lay. The coffin was carried by six pall bearers into the Methodist church. The craft formed a square about the coffin, upon which was placed the regalia of the deceased brother, as well as many floral tributes. W. B. Hamilton, Lang, the Master of the Lodge, then commenced the beautiful and impressive Masonic funeral service. At its conclusion the hymn, "Forever with the Lord," was sung. The Rev. T. Ferrier then read part of the twelfth chapter of Ecclesiastes and the fifteenth chapter of first Corinthians.

The procession was then reformed and proceeded to the station in the following order:

The Tyler with drawn sword. Stewards with white wands. Members of the lodge two and two.

The Director of Ceremonies. Senior and Junior Deacons with wands. Secretary and Treasurer. Junior and Senior Wardens. Past Masters. The Worshipful Master. The officiating Clergyman. Bearers. The Pall. — Bearers. Chief Mourners.

The cortege was followed by a procession of as many members of the Rifle Association as could be got together and a large number of friends and citizens. Arrived at a convenient distance from the station the procession opened out right and left and faced inwards to allow the latter part of the procession to pass between them. The coffin was then placed in the casket and the benediction was given. The brethren then marched back to their lodge room where the following motion was passed:

"Having been called together to perform the last sad rites for our late beloved brother, Edgar Franklin Burpee, we, his sorrowing brethren in lodge assembled tender to Mrs. Burpee our heartfelt sympathy in her sad bereavement. We trust that the Supreme Ruler of the Universe will give healing and comfort to her in her hour of affliction, and we assure her that we will treasure our brother's memory and keep his name on the roll of our lamented dead."

Mr. Burpee was born at Fort Fairfield, Maine, in 1859. Fourteen years ago he moved to Rat Portage, Ont., where for 12 years he lived as a highly respected citizen. In 1893 he took up his residence in Moose Jaw where he won the respect and esteem of a large number of friends. He was a prominent member of the Rifle Association, and the Independent Foresters.

Mr. Emerson accompanied Mrs. Burpee to Rat Portage, where her husband will be buried. Bro. Emerson bore with him the authority to request the Masons of Rat Portage to complete the funeral ceremony.

Programme of Teachers' Convention.

The convention of the Teachers' District Association promises to be very helpful to those concerned. Every department of school work is represented by practical papers. The committee in framing the programme have evidently endeavored to concentrate the maximum amount of help that can be given in two days. Mr. Goggin has most of the work. With his evening lecture he gives four addresses. Of these the most important is that on the course of studies that came into effect last July. Many radical changes have been made since the last course, the reasons for which will afford much ground for reflections for the thoughtful teacher. The teaching of ethics is one of the new subjects that has been introduced. This subject will be handled in the thorough and instructive manner that characterizes the teaching of the Superintendent. Inspector Rothwell's subject is one that is seldom well taught and his methods will be worthy of careful thought. The other papers promise able handling by some of our successful teachers. The "Question Drawer" will be in charge of Mr. Goggin. The following is the programme:

FRIDAY, 25TH OCT.—MORNING.

9:30 to 10.—Organization.

10 to 10:20.—Music lesson, A. M. Fenwick, Moose Jaw.

10:20 to 11.—Canadian History in the Public Schools, John A. Green, Boharm.

11 to 12.—Sentence and Paragraph Structure, D. J. Goggin, Supt. of Education.

AFTERNOON.

1:30 to 14:10.—The Teaching of Multiplication and Division of Fractions to Standard III, Inspector Rothwell, Regina.

14:10 to 15:10.—Ethics in the Public School, How it may be Taught, D. J. Goggin, Supt. of Education.

15:10 to 16.—Composition to Primary Classes, Miss J. Dickie, Moose Jaw.

EVENING.

20.—Lecture, "Success," Supt. D. J. Goggin.

The lecturer will be assisted by selections of vocal music and readings.

SATURDAY, 26TH OCT.—MORNING.

9 to 9:50.—Eurasia to Standard IV, A. D. McLeod, Moose Jaw.

9:50 to 10:30.—A Man's Man for a That, a literature lesson to Standard IV, Miss Emily Green, Marlborough.

10:30 to 11:10.—The Teaching of Oral Reading to Senior Pupils, D. J. Goggin, Supt. of Education.

11:10 to 12.—Nature Study, "Plant Life," Standard IV, R. H. Bradley, Stony Beach.

AFTERNOON.

1:30 to 14:10.—The Revised Programme of Studies, D. J. Goggin, Supt. of Education.

Question Drawer opened by Mr. Goggin at close of each session.

Supreme Court.

ROBERT W. TIMMINS vs. R. H. W. HOLT.—This was an action for the price of a wagon, tried at the sittings of the Supreme Court here. Judge Richardson reserved judgment, but on Friday last delivered the same at Regina, dismissing the plaintiff's action with costs.

TOWN COUNCIL.

Much Business Transacted at the Regular Meeting on Monday Evening.

On Monday, Oct. 14th, the Town Council held its regular meeting in the Clerk's office at 8:15 p.m. His Worship Mayor Bogue in the chair. Councilors present: Hicks, Hannah, Wilson and Field.

After the minutes of the meeting held on September 30th were read and approved, a communication from H. U. Korison, asking for a dray license, was read. On motion by Coun. Hicks, seconded by Coun. Hannah, it was handed over to the Inspector with instructions as to inform Mr. Korison that no draying license could be granted for a shorter period than six months. The Inspector was also instructed to notify all persons draying without a license to comply with the by law governing the same at once.

On motion of Coun. Hannah, seconded by Coun. Wilson, the account of H. U. Korison for \$10.66 was ordered to be paid less \$4.00 for dray license due the town, and the Treasurer was instructed to pay the balance amounting to \$6.66 into court. The accounts of H. McDougall for \$17.17, R. Snodice for \$289.27, and the demand of the Moose Jaw Public School Board for \$500.00, were also ordered to be paid.

Coun. Hannah, chairman of the Board of Works committee, reported that the committee had examined the buildings and fences referred to at a previous meeting and found that all the fences in that locality are on the street, but they will not interfere with the sidewalk being laid in its proper place, and recommended that all parties with these fences on the streets be requested to remove them as early as possible. In regard to the report of the Health and Relief committee re crossings opposite D. McLean's, and the communication of E. Simpson & Co., which were referred to them for final action, the Board of Works committee recommended that two open culverts, 84 feet long, be placed across High street and that the Clerk be instructed to call for tenders for same, which shall include the excavation on the scale as surveyed by J. H. Findland. The culverts to run from Campbell's to Bogue's, and from McLean's to Bellamy's. The contractor to submit plans and specifications. The communication of E. Simpson & Co. was returned with the recommendation that the request of this firm be refused as the committee considered such favors adverse to the best interests of the town. On motion of Coun. Hannah, seconded by Coun. Field, the report and also the one dated Sept. 25th last, was received and adopted.

Coun. Wilson, chairman of the Health and Relief committee, reported that he went and seen the chairman of the school board about the teacher, and that Mr. Baker sent the doctor to see teacher and that the doctor said that there was no danger whatever. On motion by Coun. Hannah, seconded by Coun. Hicks, the report was referred back to the chairman for full information in reference to the reported sickness in the Moose Jaw school.

The Finance committee reported having considered the communication of Mr. J. Wellington re income tax, and recommended that the request as made be not granted, and that Mr. Wellington be notified to that effect. It was moved by Coun. Hicks, seconded by Coun. Field, that the report be received and adopted. The motion carried, only Coun. Hannah voting against it.

By law confirming the appointment of Mr. J. W. Ferguson as tax collector for the year 1895, was read the first and second time, passed through committee of the whole without amendments, was read the third time, finally passed, numbered 140, and signed and sealed by the Mayor and Clerk.

On motion by Coun. Hannah, seconded by Coun. Wilson, the town Inspector was requested to bring in a report showing the amount of dog taxes collected by him up to date and also giving the names of parties owing dogs who have not paid.

All business being transacted the Council adjourned at a late hour to meet again on Monday evening, 28th inst.

A report from Ottawa states that Dr. Bell, of the Geological survey, who has returned from exploring James Bay, has discovered a new river running into the Bay, 200 miles long. He calls it the Nile of the North.

Life-sized Portraits Given Away

AS A PREMIUM FOR CASH TRADE, according to the following conditions:—With every \$10 worth of cash purchases at our store you will be entitled, free, to one elegant life-sized CRAOTINT portrait, copied from any photo you may select, and finished in the most artistic manner, and of the same quality which commands at retail \$15. The Moose Jaw Times.

"And what is writ, is writ—
Would it were worthier!" —Byron.

FRIDAY, OCTOBER 18, 1895.

OURSELVES.

The past week the advertising patronage of THE TIMES has been increased a little over a column. This fact is conclusive evidence that as an advertising medium our business men realize that many important points are reached that would otherwise be lost and that they are profiting by the investment.

Further, we have been complimented by subscribers from all parts of the district on the tasty appearance and well filled news columns of the paper. Such encouragement coming as it does from all interests is appreciated. While we do not approve of the principle "took your own horn," we feel that as the business men report to the public the progress they are making and the bargains they have to offer through our columns and as the reading public profit by the information, so we in return should report occasionally to our patrons. While it is gratifying to find our efforts appreciated we wish to impress on the reading and business public that while THE TIMES has been elevated to the front rank of Territorial journalism by the late editor, the encouragement received from its many patrons has been a strong factor in that direction. Advertisers inform us daily that customers call for "snaps" advertised in THE TIMES. All this without the usual "mention this paper &c." methods that are commonly used to build up an advertising business.

THE TIMES is now read by nearly every family in the district, besides having an outside subscription that is constantly increasing.

Our motto is to give honest value both to advertisers and readers. With that object in view we will endeavor to give our readers a paper clean, newsy and of a moral standing beyond dispute, and endeavor to show our advertisers that THE TIMES is the great telephone of the Moose Jaw district through which they may interview their customers.

HEARD FROM AGAIN.

Lord Sackville West, at one time representative of Her Majesty at Washington and who was given his passports by President Cleveland some seven years ago for commenting on the then approaching presidential election, in a letter to a brother Englishman in California has explained his position in a pamphlet just issued. His strictures on American public men are quite severe and are creating quite a flurry. After seven years silence the half forgotten particulars will not serve much beyond furnishing election material as it did at the time for those politicians who pander to the class that hates everything English.

WITNESS AND COUNSEL.

The late sitting of the Supreme Court revealed a phase of practice sometimes indulged in by our learned friends that was in our opinion very properly checked by the learned judge. A witness is called on to give evidence. He is sworn that it shall be the truth, and according to his understanding of the case at issue he gives his testimony accordingly. Another witness follows, goes through the same form of law, but through a visionary, intellectual, or

other difference his evidence in many particulars differs from his opponent.

Now it is a common question where this difference occurs for the learned counsel to ask one witness if the other one is not swearing to a lie. To preserve the value of an oath the law is very strict on perjury. Where a man giving evidence under oath states that another has not told the truth while in the same position, there is certainly evidence of perjury, and as cases of this kind are seldom prosecuted it tends to lower very much the sacredness with which the oath is held. Further the question and answer is really intended to destroy the evidence that has been adduced before the learned judge has decided on the merits, and it also places him in the position of being a witness of crime. The evidence of a witness should be sufficient without this superfluous question. The standing and characters of our judges is a guarantee of justice and they should not be subject to the disrespect that is undoubtedly unintentionally conveyed by this unnecessary question.

EDUCATIONAL.

In our last issue and in a general way, we touched on our present common school system of education. This matter is now being discussed by the press and leading men of the country. That education of the past has only been a matter of theory is a fact that can be attested by any business man of to-day. Few there are who have been able to put in practice the theories learned in school. We have at the head of our Educational Department able and highly educated men and the only reason why practical business education is not the education of the day must be because those at its head have been educated simply for the purpose of teaching. Business principles are obtained by experience and without taking the business men to teach it will be a difficult matter to instil business principles into a teacher who has never assumed the responsibilities of business life on his own behalf. By an exchange of ideas between teachers and business men a principal might be evolved that would meet the requirements of the day and fit our boys and girls for the practical duties of life. We clip from the Winnipeg Commercial a short article on this very important question:

"At the last meeting of the Winnipeg public school board, Mr. Bole brought up the question of adding commercial training and other more practical subjects to the list of studies taught in the public schools. On motion the superintendent was asked to report on this matter. This is in line with a growing feeling that our public schools are not meeting the requirements of the age. The Commercial has expressed its views upon this aspect of the school question in times past. It is a vastly more important question than that other school question which has absorbed so much public attention in Manitoba and throughout Canada of late, and it is a pity those in charge of our educational affairs could not be made see in this light. Our public schools are not giving satisfactory results. It is not higher education, but practical education which the present age demands. The great object should be to fit the rising generation for the practical duties of life, in so far as it is possible to do this in the public schools. This does not seem to be the aim of our educationists. Public opinion, however is being drawn to this question, and no doubt a desirable change will be brought in time."

SWINE AS MONEY MAKERS.

We are great believers in farmers giving swine an important place in the departments of the farm. Irishmen rightly give them the attribute of being the "gentleman that pay the rent," for that is what they can and will do if properly managed and looked after. English and Scottish farmers (especially the latter) do not pay as much attention to the raising of pork as they should do, and, in consequence, the British market is largely supplied from Denmark and other European countries as well as from Canada and the United States, in all of which countries swine breeding and feeding is very largely followed.

In Canada most of our farmers, as a rule, very rightly keep more or less a pig on their farms, and we could point out many a prosperous one who is not ashamed to tell you that he owes his prosperity to pigs alone. There is, and always has been, money in pork, even when prices were low, provided

that the feeder fed and managed his pigs on intelligent principles.

Some people keep a pig or two solely because they are useful to clean up scraps and prevent waste, not for the money to be made out of them. In the absence of any higher aim, this is an excellent one; but at the same time if these persons looked into the matter, they would soon find that there was money in keeping pigs, and they would largely extend their operations.

As an adjunct to the dairy swine fill a most important position, and enable us to utilize what would otherwise be waste products. In fact, without swine much of the profits of dairying would be lost. An important point, however, is to keep the kind of pig that is in demand for the time being for the packer's trade.

As an example of how much money can be realized by the sale of bacon, in an interview with a representative of the Cable, Mr. Peter, the agent of Lord Fitzhardinge, Berkeley Castle, Gloucestershire, stated that he kept about 200 to 300 head of pigs in the sty, and sold about 40 head weekly, the amount realized last year from bacon sold off the farm being between \$10,000 and \$15,000. These pigs are kept in connection with a milk factory, and are long, lean pigs of the sort that bacon curers desire. Mr. Peter acknowledged that the British farmer felt the competition of Danish bacon severely, but still advocated breeding pigs, as there was money in them.

Hugh John Macdonald's name as a possible cabinet minister is quite a pleasant amendment to most recent suggestions. He is neither a nonentity nor the possessor of a snugged record.

In quashing a conviction of a Toronto man for swearing at a neighbor, Judge McDougall holds that a man can talk as he likes on his own premises. This is alright if the judge will hold that a woman mustn't talk back.

The late William Gooderham, of Toronto, left \$389,000 in charitable bequests. During his life he was a generous man and a consistent church member. He was a whiskey distiller, but perhaps in his case temperance people will admit that a good thing came out of Nazareth.

In Canada the pauperized American farmer, with his surplus products which nobody wants, is an evil visitation which can only be averted by border taxation. Over in the United States the Canadian farmer, with his surplus products and pauperized condition, is a national menace which a high tariff alone can ward off. In both countries the farmer is told to keep quiet and encourage the infant industries lest the bars be let down and his fields devastated.

There exists in the breasts of half the people of these United States the half-concealed hope that their country will drift into war with some strong power in the immediate future. This hope is freely avowed in all the popular discussions of our foreign relations. The belief is freely expressed that a war with Great Britain would be a good thing for us on war's own account. Though the benefits to the American people to be derived from war, aside from possible territorial conquests, do not lie quite definitely in

anybody's mind, there is a feeling that war is exactly what this country needs above all other things. The popular mind is exactly in the frame of the common housewife who flies to some one favorite herb in all cases of sickness. The country is in a state of unrest and depression, and war is the remedy.

Unexplored Territory.

There are more than a million and a quarter square miles of unexplored lands in Canada, according to the opinion of Dr. Dawson, Director of the Geological Survey. The entire area of the Dominion is computed at 3,470,257 square miles, consequently one third of this country has yet been untraveled by the explorer. Exclusive of the inhospitable detached Arctic portions, 954,000 square miles is, for all practical purposes, entirely unknown. Dr. Dawson has made a careful estimate of the unexplored areas, beginning at the extreme northwest of the Dominion. The first of these areas is between the eastern boundary of Alaska, the Porcupine river and the Arctic coast, and consists of 9,500 square miles, or some what smaller in extent than Belgium, and lying entirely within the Arctic circle. The next area is west of the Lewes and Yukon rivers and extends to the boundary of Alaska. Until last year there were 32,000 square miles in this area unexplored, but a part of this was travelled last summer. A third area of 27,000 square miles lies between the Lewes, Polly, and Stikine rivers, being nearly as large as Scotland. Between the Polly and Mackenzie rivers is another large area of 100,000 square miles or about twice the size of England. It includes nearly 600 miles in length of the main Rocky Mountain range. An area of 50,000 square miles is found between Great Bear Lake and the Arctic coast, being nearly all to the north of the Arctic circle. Nearly as large as Portugal is another area between Great Bear Lake, the Mackenzie River, and the western part of Great Slave Lake, in all 35,000 square miles. Lying between Stikine and Lard rivers to the north and the Stikine and Peace rivers to the south is an area of 81,000 square miles, which, except being recently penetrated by a field party, is quite unexplored. Another area of 30,000 square miles, southeast of Athabasca Lake, is an area of which little is known, except that it has been crossed by a field party en route to Fort Churchill. East of the Coppermine river and west of Bathurst inlet lies 7,500 miles of unexplored land, which may be compared to half the size of Switzerland. Eastward from this is an area of 31,000 square miles, or about equal to Ireland, lying between the Arctic coast and Black's river. Much larger than Great Britain and Ireland, and embracing 178,000 square miles, is an area bounded by Black's river, Great Slave Lake, Athabasca Lake, Hatcher and Reindeer Lakes, Churchill River and the west coast of Hudson Bay. This country includes the barren ground of the continent. It will be remembered that Mr. J. B. Tyrrell recently struck through these barren grounds on his trip to Fort Churchill on the Churchill river, but could only make a preliminary exploration of the country. On the south coast of Hudson Bay, between the Severn and Attawapiskat rivers, is another area of 22,000 square miles, or larger than Nova Scotia. Lying between Trout Lake, Lac Seul and the Albany river, are 15,000 square miles of unexplored land, or about half the size of Scotland. To the south of James Bay, and nearer to the large centres of population than any region which still remains unexplored is an area of 35,000 square miles, which may be compared to the area of Portugal. The most easterly area is the greatest of all. It comprises almost the entire interior of the Labrador Peninsula or Northeast Territory, in all 289,000 square miles; more than twice the size of Great Britain and Ireland, with an added area equal to that of Newfoundland.

DAWN AT BUFFALO LAKE.

As Viewed by a Sportsman From His Sheaf-covered Pit While Waiting for the First Flight of the Geese.

Some hunters are content with leaving the Editor's sanctum on their return from the stubble fields a single goose without a line to indicate its life or death. Last week an exception occurred in this respect. A goose with the following verse in its bill was left by a professional sportsman. We keep the goose, but give our readers the contents of the bill.—Ed.

I saw the dusky mantle of the night,
As azure skies became more softly gray,
Tinged with the mellow glow of faint twilight,
Until her sable garments trailed away.

I saw the smaller stars sink first to rest,
As tired children do at set of sun;
Rocked on the night-wind's pulseless breast,
The sister clusters fading one by one.

Then the great watch-star shone its holy eyes,
As God's own hand the shifting scenes unrolled;
Faint streaks of purple blushed along the skies
While tides of light the distant hills enfold.

And drifting back into the shadow land,
Swept the thick darkness, for the night was done;
And where the rosy gates of morning spanned
The ocean heavens, merged the glowing sun.

Majestic, grand, and in glories too severe
For man to gaze upon, yet tender with good deeds,
He smiled upon the golden wheat-sheaves,
Which, dew-drenched, shone like pearls in diamond beads.

Along the lake his warm beams gently steal
And warm the feathery ribs to make their flight;
And on the stubble seek their morning meal,
Or worse, perchance, their death, for man's delight.

Bright dawns the golden landscape on the sight,
And warmth and gladness cheer the shivering frame,
And one by one the hunter bags his game,
"Ready, pull, bang!" the dead birds quickly fall.

Kind thanks to F. A. Meller's "Rival Sheaf."
They take the cake, they beat them one and all.
"Hurrah for Meller," echoes thro' the dells.
—Moose Jaw, Oct. 11th, 1895.

How Some Girls Kiss.

The Moose Jaw girl bows her stately head,
And fixes her stylish lips
In a firm hard way, then lets them go
In spasmodic little sips.

The Fort Qu'Appelle girl says never a word
And you think her rather tame.
With a practiced view of the matter in hand
She gets there just the same.

The Qu'Appelle Station girl removeth her speck
And freeth her face with a smile,
And she sticks out her lips like an open book
And chews the gum meanwhile.

The Regina girl, the pride of the world,
In her clinging and soulful way
Absorbs it all in yearful bliss,
As big as a bale of hay.

The Wolseley girl gets a grip on herself
As she carefully takes off her hat
Then she grasps up her prey in a frenzied way.
Like a terrier shaking a rat.

I've told you a tale of the girls who kiss
And it sets one's brain in a whirl.
But to reach the height of all earthly bliss,
You must kiss the country girl.

With one arm round her waist, her face upturned
In a sweet confiding way
You care not a cent for the whole wide world,
Though the wind through your whiskers play.

And closer together your lips you draw
Till they meet in a rapturous glow
When her little brother behind the door
Cries, Gallagher! let her go.

—J. C.
Indian Head.

Heart Disease Relieved in 30 Minutes.—Dr. Agnew's cure for the heart gives perfect relief in all cases of organic or sympathetic heart disease in 30 minutes, and speedily effects a cure. It is a peerless remedy for palpitation, shortness of breath, smothering spells, pain in left side and all symptoms of a diseased heart. One dose convinces. Sold by W. W. Bole.

THE FALL MATCHES

Of the Moose Jaw Rifle Association.

On Thursday and Friday last the annual fall matches of this association took place at the ranges. The first day's shoot was sparsely attended, owing to the wind and rain, yet three riflemen, Messrs. Green, Nelson and Morrison, booked their scores with the Martini-Henri rifle on that day.

The second day was more favorable for good shooting, and fourteen members took part in the several matches. The best of feeling prevailed throughout the competition, conducted under the supervision of Vice President Nelson, and the matches were both exciting and interesting.

The prizes, though not numerous, were costly. Lack of space prevents our giving a list of same.

MATCH I.
Best aggregate score with Martini-Henri rifle at 200, 500 and 600 yards:—

1 Duncan McVannell	74
2 Seymour Green	69
3 Dan. Morrison	61
4 Chas. Thompson	60

MATCH II.
The best aggregate score with Snider-Enfield rifle at same ranges as match I. The three highest scores were:—

1 John Wellington	62
2 Seymour Green	61
3 J. F. Muirhead	59

MATCH III.
Highest score with Martini-Henri rifle at 400 yards, 7 shots. The possible score was 35. The four highest scores were:—

1 W. J. Nelson	31
2 Chas. Thompson	30
3 Seymour Green	28
4 James Muir	27

MATCH IV.
Highest score with Snider-Enfield rifle. Same range and conditions. The four highest scores were:—

1 W. J. Nelson	30
2 J. F. Muirhead	24
3 Seymour Green	23
4 Daniel Morrison	22

MATCH V.
Highest aggregate score at 500 and 600 yards with Martini-Henri rifle:—

1 D. McVannell	49
2 Seymour Green	47
3 Daniel Morrison	40

MATCH VI.
The highest aggregate at same ranges with Snider-Enfield rifle:—

1 Seymour Green	39
2 W. J. Nelson	38
3 John Wellington	36

MATCH VII.
Highest score at 200 yards with Martini-Henri rifle:—

1 Dan. Morrison	29
2 Chas. E. Thompson	28
3 D. McVannell	27

MATCH VIII.
Highest score at same range with Snider-Enfield rifle. The three highest scores were:—

1 John Wellington	26
2 Seymour Green	23
3 Dan. Morrison	22

The ties will probably be ordered to be shot off at an early date.

This concludes all the rifle matches for the year save a goose and turkey shoot at 200 yards, head only of bird exposed, which is now being arranged by Vice President Nelson. It promises to be perhaps the most interesting match of the year.

Rheumatism Cured in a Day.—South American Rheumatic Cure for Rheumatism and Neuralgia radically cures in 1 to 3 days. Its action upon the system is remarkable and mysterious. It removes at once the cause and the disease immediately disappears. The first dose greatly benefits. 75 cents. Sold by W. W. Bole, Druggist.

Catarrh Relieved in 10 to 60 Minutes.—One short puff of the breath through the Blower, supplied with each bottle of Dr. Agnew's Catarrh Powder, diffuses this Powder over the surface of the nasal passages. Painful and annoying, it cures, it relieves instantly, and permanently cures Catarrh, Hay Fever, Colds, Headache, Sore Throat, Tonsillitis and Deafness. 60 cents. Sold by W. W. Bole.

A Beautiful Picture. FREE.

The Winnipeg Weekly Tribune.
The biggest, brightest and best family newspaper published in Canada west of Lake Superior, is again to the front with an unparalleled offer. The paper for the balance of this year is given Free to all new subscribers for 1896—that is \$1 secures the paper from now to the first of January, 1897. Besides this great offer the publishers are presenting every subscriber for the coming year with a magnificent premium picture entitled.

"THE FAMILY PETS."
This picture has been painted specially for The Tribune by one of the best lithographic artists in Canada and will sell in the open market for more than the amount asked for both the paper and the picture. It is a work of art that will adorn the walls of any drawing room. It can be obtained only by subscribers to The Weekly Tribune. It will be ready for distribution about the beginning of November and will be sent to subscribers in the order in which subscriptions are received.

The Weekly Tribune—the great family paper of the North-West and the champion of the people's rights—for 15 months, and this beautiful picture, all for One Dollar. Send in your orders now. Address: THE TRIBUNE PUB. CO., WINNIPEG.

NEAR TO DEATH'S DOOR.

This was the Condition of the Young Son of Mr. John English, of Lakefield, Ont.

Whatever may be the cause, it is unfortunately too true that large numbers of children are afflicted with nervous troubles. These in many cases assume aggravated conditions and develop often into what is really a feature of paralysis.

As a result of severe sickness some years ago, Robert B. English, the young son of Mr. John English, who conducts a large copperage business in Lakefield, Ont., became the victim of what seemed like chronic nervousness. The child was taken with severe twichings accompanied by fits that were doomed to speedily wreck the whole system. Naturally the best medical skill was brought into requisition, but no relief was secured. South American Nervine was used, and with the result that after six bottles had been taken the boy was restored to perfect health and is to-day one of the most robust and healthy children in his section of the country.

The case of Minnie Stevens, of London, Ont., daughter of Mr. F. A. Stevens of the Stevens Manufacturing Co., is a somewhat similar case. Twelve bottles of medicine cured a severe case of paralysis there.

The great secret of Nervine is that it cures the nerve centres, and for this reason is a panacea sure, certain and lasting in all cases of nervous troubles, general debility, indigestion, sick head ache, and like difficulties in old and young. It removes these troubles and besides builds up the system, for it is one of the greatest flesh-producers that the age has seen.

You Don't Have to Swear Off.
says the St. Louis Journal of Agriculture in an editorial about No-To-Bac, the famous tobacco habit cure. "We know of many cases cured by No-To-Bac, one prominent St. Louis architect, smoked and chewed for twenty years; two boxes cured him so that even the smell of tobacco makes him sick." No-To-Bac sold and guaranteed by W. W. Bole no cure no pay. Book free. Sterling Remedy Co., 374 St. Paul St., Montreal.

Relief in Six Hours.—Distressing Kidney and Bladder diseases relieved in six hours by the "GREAT SOUTH AMERICAN KIDNEY CURE." This new remedy is a great surprise and delight on account of its exceeding promptness in relieving pain in the bladder, kidneys, back and every part of the urinary passages in male or female. It relieves retention of water and pain in passing it almost immediately. If you want quick relief and cure this is your remedy. Sold by W. W. Bole Druggist.

As many good things are likely to. But you are safe in running the risk if you keep a bottle of **Perry Davis' PAIN KILLER** at hand. It's a never-failing antidote for pains of all sorts. Sold by all Druggists.

IT MAY GIVE YOU A PAIN

Does—One teaspoonful in a half glass of water or milk (warm if convenient).

Mysteries of the HUMAN BRAIN!

The latest discovery in the scientific world is that nerve centres located in or near the base of the brain control all the organs of the body, and when these nerve centres are deranged the organs which they supply with nerve fluid, or nerve force, are also deranged. When it is remembered that a serious injury to the spinal cord will cause paralysis of the body below the injured point, because the nerve force is prevented by the injury from reaching the paralyzed portion, it will be understood how the derangement of the nerve centres will cause the derangement of the various organs which they supply with nerve force; that is, when a nerve centre is deranged or in any way diseased it is impossible for it to supply the same quantity of nerve force as when in a healthful condition; hence the organs which depend upon it for nerve force suffer, and are unable to properly perform their work, and as a result disease makes its appearance.

At least two-thirds of our chronic diseases and ailments are due to the imperfect action of the nerve centres at the base of the brain, and not from a derangement primarily originating in the organ itself. The great mistake of physicians in treating these diseases is that they treat the organs

and not the nerve centres, which are the cause of the trouble.

The wonderful cures wrought by the Great South American Nervine Tonic are due alone to the fact that this remedy is based upon the foregoing principle. It cures by rebuilding and strengthening the nerve centres, and thereby increasing the supply of nerve force or nervous energy.

This remedy has been found of infinite value for the cure of Nervousness, Nervous Prostration, Nervous Paroxysms, Sleeplessness, Forgetfulness, Mental Despondency, Nervousness of Females, Hot Flashes, Sick Headache, Heart Disease. The first bottle will convince anyone that a cure is certain.

South American Nervine is without doubt the greatest remedy ever discovered for the cure of Indigestion, Dyspepsia, and all Chronic Stomach Troubles, because it acts through the nerves. It gives relief in one day, and absolutely effects a permanent cure in every instance. Do not allow your prejudgments, or the prejudgments of others, to keep you from using this health-giving remedy. It is based on the result of years of scientific research and study. A single bottle will convince the most incredulous.

Blissful Simplicity.
It is a singular instance of the simplicity of the average mind to watch the entire good faith in which the country house-keeper, when she takes her walks abroad and locks up her house, hides the key for its discovery by any other member of the family. As a matter, of course, she tucks it away under the doormat. The latter seems to enter her own mind that she has hidden every other woman of the place does precisely the same thing, and perhaps every other woman in every other suburban town. She never seems to think that that is one place that any student of her human nature who had burglarious inclinations would seek entrance to the house by simply lifting the doormat. He would be sure to find the key ready for him there.

SCHOOL BOOKS

We carry a lot of school books. If we don't happen to have what you want we can get it at short notice. We are selling them at **Ontario Prices**. It takes over half the profit to lay them down, so bear in mind *they must be Cash*.

We Have Whole Mustard
Tarragon, &c. for Pickling.

W. W. BOLE.

The Moose Jaw Times.

FRIDAY, OCTOBER 18, 1895.

LOCAL AND GENERAL NEWS.

Now is the time to subscribe for THE TIMES.

Prairie fires have swept the country to the north and are still burning. Judge Richardson paid Swift Court his semi-annual visit on Tuesday last.

The sacrament of the Lord's supper will be celebrated in the Presbyterian church on Sunday morning.

John Harrison left Winnipeg on Monday last for S. P. Clarke & Co.

Mrs. and Miss Hubbell returned home to Prince Albert last week, after enjoying a pleasant visit in Manitoba.

Baggage-master Blake, of Medicine Hat, was married in Winnipeg on Wednesday of last week to Miss J. McLean, daughter of Mr. Archibald McLean, of that place.

A carload of grains and grasses gathered this year from the farming districts of the North-West were sent this week to Mr. Arch. Baker, of the C. P. R. offices, London, Eng.

Talk about snaps! Snaps are not in it when you can get THE MOOSE JAW TIMES, a live, eight-page, forty-eight column weekly, from now to the first of January, 1897, for the small sum of \$1.50.

Bolton Magrath, inspector of schools for the counties of Ottawa and Pontiac, was accidentally killed on October 6th by being thrown from his buggy. He was the father of C. A. Magrath, M. L. A. for Lethbridge.

At Edmonton butter is plentiful at 15 to 20 cents for choice roll and 12 1/2 to 18 cents for tub. But many farmers are holding their choice tub butter for better price. Eggs are in brisk demand at 20 cents per dozen.

Divine service will be held at Mr. J. de la Haye's, Buffalo Lake, next Sunday, October 20th, at 3 o'clock, by the Rev. W. Watson. This will be the last service at this point during the present season.

Two more incendiary fires took place in Regina on Saturday last. Early in the evening fire was discovered blazing up from a stairway in the rear of the Standard office. After being put out a partly consumed pile of kindling, saturated with kerosene oil, which had also been poured on the side of the building, and an empty bottle was found under the stairway. This clue being followed up together with evidence of a very strong nature, resulted in the arrest late in the night of Wm. Curran, who has charge of the Dominion public works office. He was under the influence of liquor. The arrest caused a great sensation. The other fire was a large stack of 25 tons of hay standing a few hundred yards north of the railway track.

Buffalo Lake must certainly be the sportsman's paradise. Mr. D. W. Cumming, of the Grain Exchange, and W. A. Kagn, of Woodstock, Ont., have just returned from a shooting trip to this famous resort. In company with Mr. Herbert Carter, of Moose Jaw, they were most hospitably received and entertained by Lawrence King, J. P., who has a large and prosperous ranch near Buffalo Lake. They describe the flight of geese at that point as being almost beyond comprehension. Last Monday evening and the following morning they had bagged 107 geese before 7 a.m. They show a few scars as the result of the battle, but the wagon load of game is substantial evidence of their success, and ample proof that they got the "goose."—Free Press.

Mr. Ross was in town on Sunday last.

Dixie Watson, clerk of the court, was in town this week on business.

Mrs. Dan. Murphy, of Regina, passed through this week on her way to Chicago.

Threshing is fairly well advanced and will probably be finished within the next ten days.

Conductor A. H. Glenn and family arrived from Broadway last week and will reside here in future.

The Moose Jaw Agricultural Society's eleventh annual exhibition will be held at this place on Wednesday next.

C. P. R. dining car Conductor McGregor is relieving Conductor Allerton who has gone to Montreal on a visit.

Mrs. Lettie, of Toronto, who has been visiting her sister, Mrs. G. W. Potter, left for her home on Thursday.

Geese are swarming this week and the hunter who fails to bag ought to substantiate his gun for some salt or a club.

A car of potatoes arrived in town on Monday for the local lodge of Patrons of Industry and were disposed of at 35 cents per bushel.

An order-in-council was passed at Saturday's meeting of the Cabinet confirming the standards recently fixed by the Western Board in Winnipeg.

Mrs. Henry Fysh who has been visiting her sons, H. L. and O. B. Fysh of this place, for the past two months left for her home in London, Ont., last Monday on No. 2.

Detective Haywood, of Vancouver, will leave the coast shortly for Winnipeg to give evidence in the Farr case at the approaching assizes. It will be remembered that Haywood effected Farr's arrest on the coast.

Prairie fires on Saturday swept over large stretches of Manitoba prairie. Three persons perished by the flames. Thousands of bushels of grain and hundreds of tons of hay were destroyed. Many buildings, fences, poultry and live stock were also burned.

Major Bennett, Provincial Secretary of the Salvation Army, was in town on Wednesday and Thursday of this week, and had charge of the meeting in the barracks here on Wednesday evening. He left on Thursday's east bound train for Regina, thence to Prince Albert.

The Moose Jaw fall fair, which will be held on Wednesday next, promises to be a great event. Already large numbers of entries have been made, including some from Regina, and if the weather continues to keep fine the exhibition will be the most successful ever held at this place.

Chas. M. Hays, general manager of the Wabash railroad, has accepted a similar position on the Grand Trunk at a salary of \$40,000 per annum. Mr. Hays' headquarters will be at Montreal, Que. While he will not take hold of the work in connection with the new position until next January, Mr. Hays will leave the employ of the Wabash within a month.

"To subscribe or not to subscribe?" That is the question which every farmer in the district should decide upon immediately. Whether it is better to subscribe for the MOOSE JAW TIMES and secure a live weekly paper, that is always bright and new, to the 1st of January, 1897, fifteen months, for \$1.50, or to wait until it is too late and pay the same amount for only 12 months.

Stovel's Pocket Directory for October, is to hand containing all up-to-date changes in railway, stage, steamship and street car time tables, rates, societies, etc., all of which are corrected from official and reliable sources. Among the new features is a list of fall fairs with the dates of holding same. The Directory's maps of the province of Manitoba and city of Winnipeg (with street key for same) are always a special feature.

BIRTHS.

Ross.—On Tuesday, the 15th inst., the wife of Jas. H. Ross, of a son.

MARRIED.

FRANKS—OSTRANDER.—On Wednesday, Oct. 15, at the residence of the bride's father, by the Rev. Wm. Watson, John Franks, of the C. P. R., to Florence Olander, daughter of Mr. and Mrs. Jas. Olander.

DIED.

A pure Grape Cream of Tartar Powder. Free from Ammonia, Alum or any other adulterant.
40 YEARS THE STANDARD.

The price of Anthracite coal advanced twenty-five cents per ton at Duluth on Saturday.

Senator Kirchhoffer of Brandon is the guest of Mr. A. Hitchcock. At present both gentlemen are enjoying the pleasure of a goose hunt.

Two official cars, belonging to Gen. Supt. Underwood of the Soo line and Gen. Supt. Whyte of the C. P. R., were attached to Thursday's No. 2.

Mr. Robt. Hunt, brakeman on this division, had the misfortune to get one of his fingers severely crushed while coupling cars at Grenfell this week.

Rev. Mr. J. Gray, of Banff, who had charge of the Presbyterian pulpit here last summer, was a passenger on Thursday's express, en route to Winnipeg.

Neelands & Gibbons, of Regina, occupied Russell hall for a few days this week, with a stock of dry goods, etc. Miss Ethel Dixon assisted Mr. Gibbons during his stay here.

On Monday last before Seymour Green, J. P., Mr. W. J. Bull, of the C. P. R., was charged with shooting on Sunday. The prisoner pleaded guilty and was fined the small sum of \$5.00 and costs.

The days are getting short, Jack Frost will soon be here, and every body will want some good, newsy and instructive reading matter for the long evenings of the coming winter. You can get THE TIMES from now to the end of 1896 for \$1.50.

Prof. Robertson, of the Dominion Dairy Department, arrived in town on Thursday evening, and will inspect the creamery at this point. In the town hall to-day at 1 o'clock, he addressed a meeting of the patrons and those interested in this most important branch of farming, on the modern system of dairying.

The wheat returns for last week, at the Fort William elevators, and the returns for the corresponding week of 1894, are as follows: In store 1895, 1,569,341 bushels; 1894, 1,386,915. Shipments 1895, 639,146 bushels; 1894, 448,000. Receipts 1895, 868,000 bushels; 1894, 808,000. It will be seen that the increase is considerable in every respect over last year. Farmers' deliveries last week were very large.

Royal Templars.

Owing to the occupancy of Russell hall by Messrs. Neelands & Gibbons, merchants of Regina, for the purpose of their trade, there was no council meeting of the Royal degree on Tuesday evening last.

The next regular meeting will be held on Tuesday evening next, the 21st instant, when an interesting debate will take place on the resolution "that city life is more enjoyable than country life." R. W. Timmins captains the city side, while Select Councillor Nelson leads the rural adherents.

Franks—Olander.

On Wednesday afternoon an interesting ceremony was performed at the residence of Mr. and Mrs. James Olander, on High street, the occasion being the marriage of their daughter, Miss John Franks, chief clerk of the assistant superintendent of the C.P.R. The ceremony was performed by Rev. Wm. Watson, Vicar of St. John the Baptist church. The bride was tastefully dressed in cream cretonne, trimmed with satin and pearls. The bridesmaid, Miss Jessie Olander, wore cream cashmere trimmed with a red rose and blue-green silk. The groom was supported in his hour of trial by Mr. Thos. W. Scott of Winnipeg. After the wedding the present ran down to a very cheerful repast at which the usual toasts were drunk and speeches of congratulation made. On the arrival at the Atlantic express the happy couple left on the 12 o'clock train for Winnipeg and American cities. The brides going away dress was a handsome, well-trimmed gown of brown silk velvet and satin, with hat to match. A large number of friends were at the station to bid Mr. and Mrs. Franks on their voyage. The bride was the recipient of many costly and beautiful presents which showed the esteem and good will of her large circle of friends.

Rifle Association.

The adjourned monthly meeting of this Association was held in the office of the Vice President, President Leary in the chair. In the absence of Mr. Gass, Mr. Nelson acted as secretary. The meeting was well attended.

On motion of Vice President Nelson, seconded by Jas. Wilson, it was resolved unanimously:—"That this association learns with deep regret the sudden death of their brother rifle man, Mr. Edgar E. Burfee, whose interest in the shooting, in common with other sports, and whose kindly manner, high sense of honor, and genial companionship endeared him to all his members."

That a resolution of condolence be drafted, suitably expressed and presented to his widow; and that the president, vice president, Seymour Green, Chas. A. Gass, Jas. Wilson and George Holden go to a special committee to carry out the wishes of the association in this regard."

The report of the Executive committee, the substance of which appeared in our issue of the 11th, in regard to the monthly competitions which concluded on Friday, the 4th inst., was presented and adopted.

The report of the executive committee in regard to the fall matches, the result of which appears in another column, was read and discussed clause by clause. Fifteen prizes were offered by the association, for which prizes the association are indebted to Messrs. Smith & Burton, Ltd., of Regina, Messrs. Holt, Bole, Robinson, Baker, McLeod, McCauley, Stunt, Ferguson, Haines, Hales, McMillan, and Nelson, of Moose Jaw, Hamilton, Hales and Green. The members received their several prizes according to their standing. A first and second prize was given in each match with an additional third prize in matches I and II. The ties between Seymour Green and Jas. Morrison in match I, and between John Wellington and Seymour Green in match II, were ordered to be shot off Tuesday, the 12th inst., at 12 o'clock. The tie for second prize between Mr. Green and Mr. Nelson in match VIII was awarded to Mr. Nelson, his score being of better merit. The next contest for the silver cake-baker was fixed for the same date, the previous resolution having been annulled.

A live turkey and goose match was also arranged for, the date to be fixed by the special committee appointed to arrange the same, consisting of Messrs. Leary, Nelson, Green, Wright and Furniss. The match will be shot at 10 o'clock, on the 12th inst., or without rests. The match to conclude with a dinner, to be given by the association on the evening of the same day.

After other formal business was concluded the meeting adjourned.
